“United Together Against ALS”

Mission & Information

ALS United Orange County is committed to supporting individuals and families impacted by Amyotrophic Lateral Sclerosis (ALS). Through collaboration with the community, medical experts, and researchers, we aim to improve quality of life, raise awareness, and advance effective treatments toward finding a cure for this devastating disease. Our dedication remains steadfast as we stand united in the fight against ALS.

About our Walkathon

Every year, hundreds of thousands of people across the country bring their determination, energy, and passion to the ALS OC Walkathon. This inspiring event offers an opportunity to bring hope to people living with ALS and to raise critical funds for a cure. What began as a small group of concerned citizens has grown into a nationwide campaign with more than 150,000 participants. Since its inception in 2000, the Walkathon has raised over \$200 million to support ALS programs, services, and research nationwide. The United Against ALS is our largest annual event attracting an average of 2500 walkers each year. **Join us on Saturday, November 1, 2025**, at Park Place in Irvine and be part of the movement to create a world without ALS.

About ALS United Orange County

ALS United Orange County is a nonprofit health organization dedicated exclusively to serving individuals and families affected by ALS (Amyotrophic Lateral Sclerosis). Our primary focus is Care Services—providing essential resources and compassionate support to local ALS families. Thanks to generous donations, we offer a variety of programs at no cost to people living with ALS, including: Communication device loans, Equipment loans, Speech therapy, Respite care grants, Support groups, A monthly newsletter, Transportation vouchers and educational symposiums. A portion of donations also helps fund the UCI Neuromuscular Clinic, where patients receive comprehensive, multidisciplinary care in a single location. In addition, we are committed to advancing research and advocating for the ALS community.
